

## **INSTRUCTIONS FOR USE AND STORAGE**

Slide the SMARTBAR™ weights plates into the gator head, ensuring that the weights plate locks securely into place. Load weights plates one by one up to a maximum of three weights plates (of any weight) on each side. We recommend loading the weights from largest to smallest so that the heaviest weight sits on the inside of the gator (i.e. closest to where it attaches to the bar).

To release a weights plate, pull the red handle towards the centre of the bar and slide the weight off the bar. Remove weights one by one.

Do not drop or throw the SMARTBAR™ bar or weights plates.

Store in a SMARTBAR™ Equipment Storage Rack, or horizontally on a solid, level surface. Do not store the SMARTBAR™ bar on its end vertically. Avoid storing the SMARTBAR™ in extreme temperatures.
