+ Workout Guide**

GET SET TO BURN CALORIES

Follow this workout guide and you'll amplify calorie output as you mix cardiovascular fitness and muscular strength training to improve metabolism.

YOU HAVE CHOSEN LEVEL 1

This workout guide is perfect for you if you're not regularly exercising, but you want to establish a healthier lifestyle and a consistent exercise routine. Developed specifically for people who haven't exercised in the last 6 months, this guide involves:

- 2 to 4 workouts a week – you'll end up training for between 1 and 2.5 hours each week.
- 3 to 5 full rest days per week.

THE BENEFITS OF FOLLOWING A PLAN CREATED BY EXPERTS:

- It makes life easy, there's less guesswork about what to do.
- Reduce injury risk with well-planned increases in intensity.
- Stay motivated knowing that you can successfully complete each week.

HOW TO GET THE MOST FROM THE NEXT 8 WEEKS:

- Keep enjoyment front of mind. Do not be too hard on yourself if you feel tired or unmotivated, it happens to everyone!
- Listen to your body. If you are feeling fatigued and need to take an extra rest day – take it! It's essential to listen and learn from your body.
- Try and hold back from doing more than your workout guide states – even if you are feeling energized and unstoppable, quality is better than quantity.
- Stay hydrated before and after training sessions and keep a water bottle with you during your workouts.
- Remember – the workout times are a guide only. We suggest you always start a group workout at the beginning of the class, work out for the duration recommended in the training guide and then leave when you please.

BEFORE YOU BEGIN:

- As with any new exercise routine it's a good idea to get cleared by a medical professional before you start.
- This plan is not recommended for anyone under the age of 18 years.

TIPS FOR SUCCESS

Keeping track of how regular exercise affects your emotions and energy levels is a great way to stay motivated. Consider taking the time after each session to note down how you are feeling.

Recording your measurements with a measuring tape is also a good idea – it won't take long for you to start seeing results.

Remember to celebrate the milestones you are achieving too, this will keep you motivated.

WELCOME TO YOUR NEXT 8 WEEKS

If you want to make the most of your next 8 weeks, planning is key. We suggest you personalize the training plan by recording the specific workouts that you intend to do. Simply write down the workouts you're planning to complete and then tick them off once you've done them.

Rather than scheduling the full eight weeks of exercise at the outset, it's a good idea to sit down at the beginning of each week and simply plan for the week ahead.
